

# STEAM Challenge

STEAM stands for Science, Technology, Engineering, the Arts & Math.

Our STEAM Challenge Group brings together these five disciplines to create active and inclusive learning opportunities that challenge participants mentally, while inspiring them socially. Building water balloon catapults for a fortress battle royale in the park is a great example.

Each of the session adventures are just as engaging, requiring group problem solving, team work, and individual exploration designed to bring out the strengths and sense of adventure in each participant!

**Duration: 8 weeks**

**AGES: 8+**

## Developing Skills Groups

Our “Developing Skills” style groups follow a set curriculum, and inspire participants to work together towards acquiring skills needed to pursue their personal growth and success. Developing Skills style groups are well suited to children, youth, adults, caregivers and community members who are ready to jump in and learn some new skills!
